Drought

At the beginning of the month Bell, Milam, and Robertson County were classified in extreme (D3) to severe drought (D2). This area received 3 to 4 inches of rain during the month and some improvements were made. Robertson County was no longer in drought by the end of the month, and Bell and Milam were classified in a severe drought (D2).

DENTON COUNTY --- 1.5 NW LEWISVILLE [33.08, -97.02]

07/01/12 16:25 CST 2 0 Thunderstorm Wind (EG 35 kt) 07/01/12 16:25 CST 0 Source: Broadcast Media

Two teenage brothers drowned at Lake Lewisville after 40 MPH outflow winds moved across the lake. The boys were swimming at the time and one brother was swept out due to the strong winds. The other went out to help him. Both boys were recovered that evening by dive teams.

Direct Fatalities: M15IW, M17IW

Strong outflow winds from a thunderstorm caused the deaths of two teenage boys at Lake Lewisville.

Outflow from thunderstorms to the east produced wind gusts in excess of 45 MPH on Lake Lewisville. Two men drowned in separate incidents shortly after the strong winds affected the lake. One died after his small inflatable boat overturned from the gusty winds. The other died after he was overcome on his paddle board by choppy waters.

Direct Fatalities: M43BO, M55BO

DALLAS COUNTY --- 1.5 WSW RENNER [32.99, -96.75]

Outflow from thunderstorms to the east produced wind gusts in excess of 45 MPH on the campus of The University of Texas-Dallas, in the city of Richardson. This outflow caused the collapse of a crane which was being dismantled at a construction project. Two workers, a 58 year old male, and a 50 year old male died in the crane collapse.

Direct Fatalities: M58EQ, M50EQ

KAUFMAN COUNTY --- 0.6 E BLACK JACK [32.63, -96.16]

07/07/12 14:50 CST 0 Hail (0.75 in) 07/07/12 14:53 CST 0 Source: Public

Penny hail was reported approximately 9 miles northeast of Kaufman.

A cluster of thunderstorms developed during the afternoon hours of July 7th. Thunderstorms for the most part, stayed below severe limits, with numerous reports of pea sized hail. However, two thunderstorm produced outflow winds in excess of 45 mph. One outflow crossed the campus of the University of Texas at Dallas, which is located in Richardson, TX. A construction crane was in the process of being dismantled, when thunderstorm outflow winds caused the crane to collapse, killing two people. The other outflow boundary moved across Lake Lewisville where it caused the deaths of two individuals who were on the water at the time.

HENDERSON COUNTY --- 3.0 SSE CEDAR CREEK RES NORT [32.33, -96.15]

07/08/12 15:50 CST 20K Thunderstorm Wind (EG 52 kt)

07/08/12 15:52 CST 0 Source: Newspaper

Power poles were knocked down, trees were snapped and blown over, and minor roof damage occurred to properties.

A severe thunderstorm over Henderson County produced a downburst of severe winds across the town of Gun Barrel City. Power poles were knocked down, trees were snapped and blown over, and minor roof damage occurred to properties.
